

GDOC Program Recidivism/Staffing Requirements

August 2024

This report includes the overall recidivism rates (2021-2022) for evidence-based programming provided in the Gotham Department of Corrections facilities for high-risk people. Staffing numbers describe how many full-time employees are needed over the course of a year to keep each program running. Each program facilitator completes extensive training and must complete eight hours of continuing education each year.

Program	Recidivism Rate	Staffing
Anger Management	0.43	4
Basic Cognitive Skills	0.42	4
The Bureau Rehabilitation and Values Enhancement Program	0.08	5
Challenge Program	0.17	4
Dialectical Behavior Therapy	0.43	14
Mental Health Step Down Program	0.25	7
Residential Drug Abuse Program	0.53	5
The Resolve Program	0.55	9
Sex Offender Treatment Program	0.63	13
Steps Toward Awareness, Growth, and Emotional Strength Program	0.29	19

Recidivism Rates across EBBR programs
2021 – 2022

Findings

Overall, the program with the lowest recidivism rates is: The Bureau Rehabilitation and Values Enhancement Program. The program with the highest recidivism rates is: Sex Offender Treatment Program. The average weighted recidivism rate is 0.35.

Methodology

All participants have taken one of these programs right before release. The cohort analyzed were released from prison in 2020 and 2021. Overall recidivism rates are computed.
